Subject: QI Problem Log

I would like to get together with everyone and talk about the QI Problem Log. Complying with this Quality Improvement is beyond my scope of delegation. Compiling information for the problem log would require restructuring common lab procedures, involve all laboratory personnel and require responsibilities be delegated to certain individuals outside of QC. I hope we can discuss this quality improvement and perhaps other laboratory needs for improvement that would benefit the long term goals of the Drug Lab during a period of limited resources.
